

PRODUCT FILE

KASSEL 56"

Country of manufacture:	India
Year of manufacture:	1930
Number of blades:	3
Diameter:	140 cm
Power:	100 watts
Weight:	12 kg

KASSEL 56"

India - 1930

Kassel ceiling fans, as well as Tropical fans, came from old Indian medium size manufacturers, whose production was concentrated in a short time period. Such factories were frequently born to satisfy the demand of fans on the part of local governments, and once that attained, they often disappeared.

In spite of this, the product quality is amazing. Kassels are indeed unpretentious, high quality, powerful fans. As they are virtually indestructible, they were mainly used in public places such as railway stations and schools, but also for outdoor purposes, under public arcades and hotel patios. Our Fantique collection includes several fans with a 48" or 56" blade diameter.

Guaranteed quality

Fantique's "Period Originals" collection is covered by a 2 year warranty. Hand assembled one by one, the fans are checked and tested individually in each and every components before packaging. Every function is also meticulously tested: from balancing and blades inclination to flow rate, from electric standards to rigorous endurance tests (5 hours at full speed).

Telephone assistance

Our antique fans are mounted in the same manner as commercial models, which is quite simple. We nevertheless recommend that you rely on qualified personnel, to whom Fantique offers telephone assistance free of charge on any issues (not necessarily related to the mounting of the fan), by simply calling the following numbers: +39 06 68802417 or + 39 337 733077.
